

KELLY RYAN 7' BAGGER

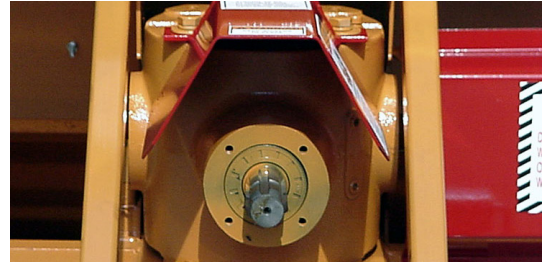

Benefits

- Only 7' bagger on the market
- No wheels to move, the machine is always in operating position
- The tractor is positioned in the front-center of the machine

Standard Features

- Self-cleaning tunnel (**no need for tunnel clean out**)
- 60" rotor with packing bars with 1" tine caps
- Cable drums to accommodate 150-ft. bag with some double wrap
- 2" diameter cable drum shaft
- Mechanically adjustable no-rust chrome brake disc
- #62 conveyor chain
- Hydraulic motor driven cross-conveyor
- American-made RC-160 roller chain drive running in an oil bath
- 2-15/16" bore tapered TIMKEN main drive bearing
- 1/4" double endplate which prevents silage juice from reaching the main rotor bearing
- New 15" tires

Optional Equipment

Bondioli 2150 Gearbox

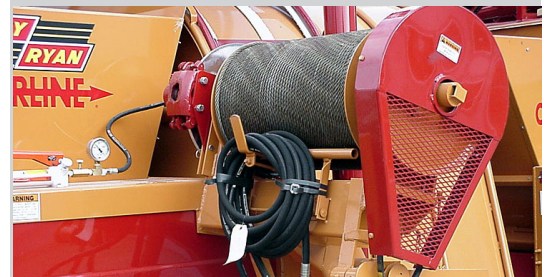

- Same gearbox as on our 8', 9', and 10'-ft baggers
- Gear ratio 2.42:1

Patented "Centerline" raised rotor

- Puts up to 15% more in the bag than bottom pack units
- Packs more punch from the center, with less H.P., for tighter, more uniform bags of feed
- Higher quality feed due to more even packing

Standard mechanical brake

- No matter how much the temperature changes, the mechanical brake keeps the tension consistent throughout the bagging process

Optional Features

- Hydraulic cable rewind
- Hydraulic brake with hand pump and gauge
- Bag lift
- Cables for 200' bag
