

## KELLY RYAN BAGGER TENDER

### Benefits

- The moving hopper takes larger, heavier loads than a mounted platform on a bagger
- Perfect for filling upright silos
- Great for any material that needs to be uniformly fed into any system
- Apron speed infinitely variable from either tractor seat
- Self-contained hydraulics available on either size
- Towing tongue removable for normal use

### Standard Features, 14-Ton Unit

- Inside dimensions: 10' x 16' long x 3 1/2' deep
- Double 667H floor chains (4)
- 10-ton running-gear steering axle
- Discharge full loads in as little as 6 minutes
- 3 hydraulic-drive motors, no gearboxes
- Safety shields on all drives
- Double-formed box channel center floor support
- 7,000-lb. jack with wheel on each side to relieve the load on the skid even packing

### Standard Features, 17-Ton Unit

- Inside dimensions: 10' x 20' long x 3 1/2' deep
- Double 667X floor chains (4)
- 12-ton running-gear steering axle
- Discharge full loads in as little as 7 1/2 minutes
- 3 hydraulic-drive motors, no gearboxes
- Safety shields on all drives
- Double-formed box channel center floor support
- 7,000-lb. jack with wheel on each side to relieve the load on the skid
