COMFORT MAT

OUTSTANDING COMFORT
AND SUPPORT FOR YOUR COWS

DEALER INFORMATION:

PROUD MEMBERS OF

For the ultimate and only 3" foam on the market, look no further than Promat's Comfort Mat. The high density memory foam molds to the contour of the cow, giving her outstanding support and comfort.

Comfort and Health Benefits

- Pressure relieving foams promotes improved circulation
- Reduces hock sores by providing cushion and a stable footing allowing the cow to get up and down easily
- Keeps udders cleaner through proper positioning of the cow

Operational Benefits

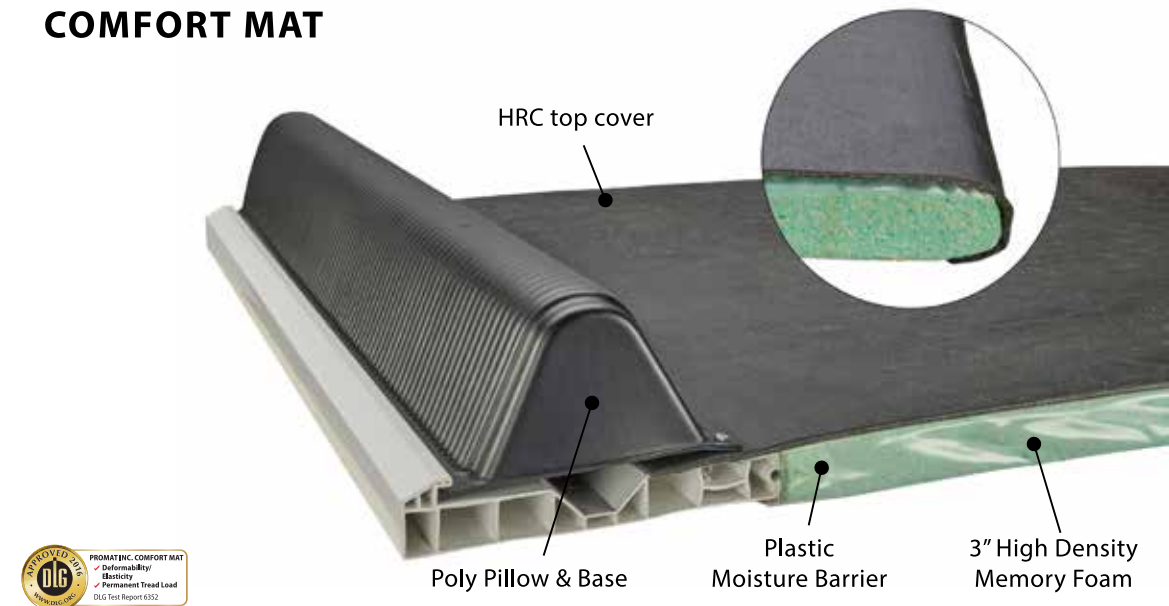

- Easy to clean
- Next to no maintenance required

Financial Benefits

- Additional lying time translates into higher yield and better cow health
- Cleaner udders lead to reduced vet costs
- High density foam ensures long life

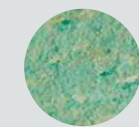

COMFORT MAT

PROMAT INC. COMFORT MAT
 ✓ Durability
 ✓ Elasticity
 ✓ Permanent Tread Load
 DIG Test Report 6352

Promat's innovative Comfort Mat design includes the following components:

1

A durable and high density European memory foam provides a unsurpassed level of softness and comfort. Available in 1 1/2" and 3" thicknesses.

2

Plastic moisture barrier to maintain integrity of the foam and ensure longer life.

3

PROMAT's patented natural rubber-impregnated (HRC) or wax-coated (CS) polypropylene top covers deliver industry-leading flexibility and footing stability, all the moisture protection of solid rubber without the slipperiness or tendency to dry and crack, all while providing an easy-to clean surface, long-life durability and unsurpassed comfort for your cows.

4

Poly Pillow and Base is recommended with all our free stall systems to help position the cow and maintain a clean and dry stall.

“ Investing in cow comfort is easy and I've never met a farmer who regretted it. Cows reward you with more milk, more components, better efficiency ... the return on investment (ROI) is enormous and priceless. ”

— Dr. Nigel Cook, The Dairyland Initiative/School of Veterinary Medicine, University of Wisconsin – Madison
