Lange Liner Panels

WHAT IS IT?

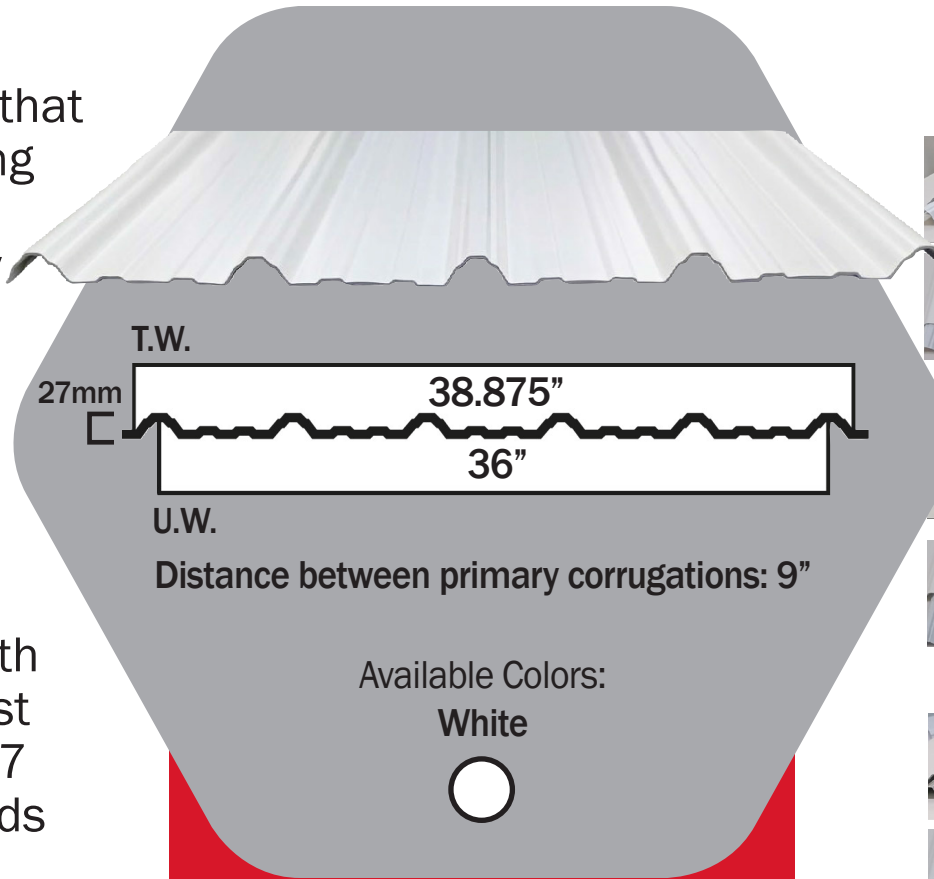

The Lange Liner is a panel that lays directly over pre-existing steel, while being versatile enough to be used in many different applications.

WHY USE IT?

An affordable solution that's durable, easy to install and maintain. It's 4x thicker than 29 ga. steel with a 100% warranty for the first 3 years and pro-rated final 7 years. This PVC liner expands only 1/4" per 20' panel from cold to hot conditions. Rust, moisture, corrosion and chemical resistant.

WHERE TO USE?

The Lange Liner can be used in any **NEW** or **REMODEL** livestock confinement buildings, machine sheds, shops, garages and more!
